3 1500 Trees - Steve Stilwell

Steve Stilwell came on behalf of a group in Licking County called 1500 Trees. The group started in 2019 at the First Presbyterian Church in Granville with a goal to plant 1500 trees; They have planted around 300 trees to date, mostly in the Granville area because that is where they started and now are branching out to Newark and are working with the Licking Park District, Dennison, Granville Rec and schools. The model has been that people contribute \$150 per tree, a location is chosen and the tree is planted by Albans Tree Service. Trees are generally planted on public property.

Andy Bruney asked if this would contradict or would it work hand in hand with Johnstown's Memorial Tree Fund. Marvin Block asked what caliper the trees would be; Mr. Stilwell said one to two inches. Discussion on how this could work in cooperation with Johnstown's Memorial Tree Fund, costs, procedure etc. People would pay for trees through the memorial tree fund, Johnstown would pick the site, call OUPS to mark utilities then 1500 Trees would bring the tree, auger a hole and plant the tree. Beyond that, Johnstown would be responsible for care. Johnstown would also be listed as a planting site on the 1500 Trees website.

ACTION: Mr. Campbell moved to work with 1500 trees; Mr. Bruney seconded and all were in favor.
